Portable Sinks

With Hot and Cold Running Water

Meet Local and State Licensing Codes*

Our portable sinks help you meet hand washing codes required by local and state agencies. Every component in our sinks meet one or more of the following standards:

- Water Pump meets UL, CSA and NSF Standards
- Water Heater meets CSA and UL Standards
- Electrical Components meet UL and CSA Standards
- Cabinet and Top meet FDA Approval
- Water Lines meet NSF and FDA Approval

*Check with your state and local agencies for approval prior to purchasing

No Plumbing Needed

Eliminate the high cost of plumbing with our self-contained, hot and cold water portable sink with refillable water tanks. Our exclusive "Quick Connect" feature makes the tank connection simple and fast.

Place Almost Anywhere

Because our portable sinks are self contained, you can place them in your classroom, church, childcare center, catering hall or cafeteria, office, boardroom, play area, or anywhere hand washing is required.

Our "Premier" portable sink is the best engineered portable sink on the market.

Designed to meet licensing and health requirements for hand washing.

Our self-contained, adult-sized portable sink has hot and cold running water. No need for assembly, our sinks are shipped ready to unpack, add water and flow.

The "Premier" features our exclusively designed ABS top for virtually germ-free cleaning, locked cabinet for safety and casters for easy mobility! We also offer superior quality stainless steel basin options upon request, at an additional cost.

Premier™

'Lil Premier™

Our kid-sized "Lil' Premier" has hot and cold running water just like its big brother "The Premier", placing hand washing at just the right height for preschoolers and toddlers. "Lil' Premier" features our exclusively designed ABS top for virtually germ-free cleaning, locked cabinet for safety and casters for easy mobility! We also offer a single stainless steel basin option upon request, at an additional cost.

Kiddie Station™

Our "Kiddie Station" diaper changer portable sink offers you a 7" deep changing deck and includes a soft 1" thick durable changing pad. Featuring plenty of private storage area under deck with one fixed-shelf. Easy mobility with six casters with two front locking. Sink cabinet locks for safety which includes two keys that can be replaced if lost.

Delux™

'Lil Delux™

Plenty of counter space with our "Delux" and "Lil' Delux" portable sink models that feature four stainless steel basins. Perfect fit for the classroom, food service and concessions, or anywhere you need a two station hand washing unit. Each side locks for safety and runs on its own hot and cold water system with its own fresh and waste water tanks.

Standard Portable Sink Features:

- On-demand, hot water feature
- Our exclusively designed, germ-resistant, non-porous ABS top and basin
- Elegant, durable, maple grain vinyl coated laminate sides
- Separate fresh and waste water tanks
- Exclusive "Quick-Connect" feature
- 110V CGFI plug and outlet protection
- Casters, front are locking
- Locking cabinet with two keys

Each sink includes

Our Exclusive:

Ozark River™
Portable Sinks

Portable Shower Unit 8' x 20'

This is a portable shower/sink unit. Standard features include 6 shower stalls with private shower curtains, 4 sinks, mirrors above sinks, double lockable exterior doors with single interior entrance door, window, finished walls and ceiling, aluminum floor, AC exhaust fan, AC electrical, plumbing and drain lines for showers and sinks for quick, convenient hook up. Rugged and durable, this building is ideal for any situation where shower facilities are needed, either for permanent or temporary usage. This unit is manufactured from a new, ISO standard steel container and can be quickly transported via standard cargo container ships, trucks or rail. This building requires no foundation, no structural assembly and carries a 10 year structural warranty. It also offers great resistance to natural disasters. Delivery of this model is available to all destinations in the USA and Canada.

Standard Features

- Six (6) shower stalls
- Private curtains
- Anti-slip floors
- Four (4) sinks with hot/cold faucets, towel racks, and soap placeholders
- Four (4) mirrors, one above each sink
- AC electrical system, which includes breaker panel, fluorescent light fixtures, wall receptacles, wiring, etc.
- 2" rigid insulated finished walls and ceiling
- One (1) 5mm thick window which features screen and removable metal window shutter
- Standard double end container door with separate entrance door/wall inside
- Ventilation fan with on/off switch
- 10 year structural warranty
- Great resistance to natural disasters, including resistance to winds up to 100 mph (175 mph with anchoring)

Quality Guaranteed

All our multi-purpose portable buildings are manufactured from new, ISO standard steel containers and carry a 10 year structural warranty.
